## Office Furniture

The look you want. The productivity you need...  
We furnish it all!

Whether you prefer the understated elegance of traditional dark wood or the artistic flair of ultra-modern designs, we have the office furniture that is right for your business. We have a complete range of furniture styles that will achieve the look and feel you want while maximizing the comfort, safety, and productivity of your workplace.

### Need Advice?

Furnishing your office is easy with the help of SourceOne. From answering questions about individual pieces over the phone, to analyzing your specific requirements at your location, our design consultants will help you create a stylish, functional, and comfortable workplace that fits your budget.

### Office Design

Hands-on assistance in workspace planning, selection, and installation makes the process easy! Our experienced design consultants work with you to determine your specific furniture needs right at your location. After entering this information into a graphic drawing program called Giza, the consultant then plugs in different furniture choices. The result: 3D schematic images of how your office would look with various furniture selections.

Call 1-800-677-3031 to speak with a SourceOne design consultant today!
